ONCE books either overcrowded limited shelf space or empty shelves yawned and waited for books. When one bookcase overflowed, a new one was purchased, and its gaping shelves were gradually filled. That was before the Globe-Wernicke period in bookcases. Now, books and their shelves come together. The bookcase grows space with the library. This is the modern way of building a library. This is the Globe-Wernicke idea.

What Interests You

We are interested in those things that most interest you. The style conditions are largely influenced by the demand. Certain garments may be very stylish and desirable but if there is no demand for same it is of no value. It is our business to study the market and have those goods that are in the most demand and have that degree of style and service that will meet the requirements of the trade. We have at this time an unusual large stock of well selected merchandise, goods that we are sure will interest and appeal to the public as having style and service that will interest and appeal to you as the season's best values. See the special Wooltex Coat values we have just received.

The natural Raccoon and Fox Furs are very popular this season. These are a Fur that come at a popular price and are a good serviceable Fur.

Ladies' Fur Coats

This begins to make us think of Fur Coats and warm garments of all kinds. The line of Fur Coats we are showing this season are the best we have ever had.

When we ask you to come in and see our odd sized Coats, we do not mean that the size is the only feature that should attract your attention.

This is a line of Coats that is made for service, as well as a shape that fits.

When we buy a Fur Coat to sell to our trade, we demand that the same shall be made from the best quality of Fur. But there are other features that are just as important.

We can buy Fur Coats to sell at almost any price; but the Coats we put out must be made in the best of style and every Coat must be strong on all seams where any strain comes. Then they must be well interlined, as any Fur Coat that is not interlined in good shape will not stand the service and strain they are put to.

Ladies' Fur Coats

We have a number of odd Coats that are made of the best quality of selected skins and lined and interlined with the best quality material. These are Coats that are short lengths, say from 26 to 36 inches, and for a warm serviceable Coat are worth more than double the price we ask for them.

See the Seal Coat you can buy at \$12.50. Is a Coat that is worth \$30.00.

At \$15.00 and \$20.00 are a couple of good Fur Coat values.

At \$25.00 are three Black Pony Coats in a quality that is the best — are Coats that sold at \$35.00 to \$45.00 each.

We are putting out a special Black Pony Coat in full length that is one of the best values we have seen.

If you want a good Fur Coat that will give you all the service you demand, see these for Coat values.

Small Furs and Muffs

The demand for small Furs and Separate Muffs has been quite marked in the last week. We have one of the largest lines of popular Furs we have ever shown.

While we can sell you a Muff at \$1.50 and \$2.00, the Fur that we advise you to buy for service at a small price is one at \$3.50 and \$3.98. Here is a Fur that is made of a Fur that will wear and look nicely for two seasons.

At \$5.75 is a Medium-sized Sable Opossum Muff that will wear extra well. We have a Scarf to match this Muff at \$3.98 and \$5.75.

We have just received by express another lot of those large Sable Opossum Muffs. This is one of the best Muff values we ever put out. Is a Muff that sells at \$8.75 and looks like a Muff at double that price. See the Scarfs to match this Muff at \$6.98.

In the better Furs we have some unusually good values. In the Fox, Natural Raccoon, Lynx, Mink, Wolf, Marten, Pony, Marmot or Opossum. See this line of Furs before purchasing.

We have just received a line of Wash Goods that are entirely new, goods that are different in finish and weave, these are goods that will appeal to you as just the thing for winter wear.
